

aquasine

The natural solution for a safer future

Natural and neutral disinfectant

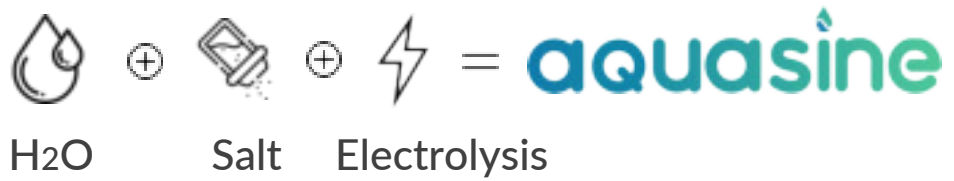

MISSION & ACTION

Give everyone back the comfort of living in a healthy environment.

Provide an environmentally responsible and economic solution for effectively disinfecting against the risk of infection.

CLEAN ACTION & PRODUCTION

INNOVATIVE TECHNOLOGY

Natural and neutral disinfectant

RANGE & PACKAGING

AQUASINE
Surfaces & Equipment

Packaging

Mist sprayer 300ml
Container of 5/10 & 20 liters

AQUASINE
Misting

Packaging

Container of 5/10 & 20 liters

AQUASINE
Hands & Surfaces

Packaging

Spray 100ml
Refill of 2 & 5 liters

KNOW-HOW & SOLUTIONS

Our unique electrochemical activation system, combined with more than 10 years of experience, allows us to produce clean and sustainable solutions to eradicate viruses, bacteria and pathogenic fungi.

**Whatever your
disinfection needs.**

ECOLOGICAL & ÉCONOMIC

A safer world

Improve sanitisation and respect the planet while reducing waste and the carbon footprint.

Tested & approved efficiency

The Aquasine solution eliminates pathogens in accordance with standards EN 1275, EN 14347, EN1276, EN 14476 and uses biocides TP1 TP2 TP3 TP4 TP5.

Economic

Aquasine drastically reduces your expenses on the purchase of disinfectant chemicals, costs of transportation and recycling.

NO MORE TOXIC CHEMICAL DISINFECTANTS

ALTERNATIVE PROTECTION

The Aquasine range is the ideal disinfection solution for human hygiene, the food industry, surfaces & equipment or even areas specific to your pets.

Aquasine also provides professional solutions tailored to breeding, agriculture, industry, communities and water treatment.

- **Totally biodegradable,**
- **No bioaccumulation,**
- **Decisively respectful of the planet.**

THE NATURAL SOLUTION FOR THE FUTURE

DISINFECTION

ENVIRONMENTALLY RESPONSIBLE

Aquasine offers a complete disinfection solution suited to each occasion (products & dispensers).

With no safety recommendations needed, it facilitates the treatment of small and large private or public areas.

Aquasine provides a healthy and economical response to biological risks, while respecting the planet and its biodiversity...

STANDARDS

& USES

STANDARDS

Bactericidal [EN1276](#) - Sporicidal [EN14347](#) - Fungicidal [EN1275](#) - Virucidal [EN14476](#) , [EN14476+A2](#)

USES

[TP1](#) Human hygiene - [TP2](#) Disinfection of surfaces, air and materials not intended for direct application to humans or animals - [TP3](#) Veterinary hygiene - [TP4](#) Surfaces in contact with foodstuffs - [TP5](#) Disinfection of drinking water intended for humans and animals.

TREATMENT & DIFFUSION

The Aquasine range adapts to your constraints to guarantee you simple, fast and efficient disinfection in complete safety.

You can thus sanitise a simple bedroom to a concert hall with our solutions through:

- **Misting**
- **Dry fog**
- **Spraying**

PROFESSIONAL RANGE

EXTERMINATOR

Sprayer

Disinfection up to
10 000 M²

ECOFOGGER

Mister

Disinfection up to
2 000 M³

AQUABRUME

System from 14 to 120 nozzles.

Disinfection up to
10 000 M³

HOME & OFFICE RANGE

AQUAHOME 500 ML

+2 liters
Aquasine misting
Dilution from 25% to 50%

AQUAHOME 1 Litre

+5 liters
Aquasine misting
Dilution from 25% to 50%

AQUAHOME 24 Litres

+10 liters
Aquasine misting
Dilution from 25% to 50%

AREAS OF

APPLICATION

COMMUNITIES

Schools, nurseries, retirement homes, public transport, rental vehicles, sports halls, public toilets

INDUSTRIES

Production, processing, packaging chains...

VETERINARY HYGIENE

Veterinary laboratories, veterinary clinics, veterinary equipment

CATERING HOSPITALITY

Restaurants, canteens, industrial kitchens, hotels, breweries...

HOSPITAL HYGIENE

Hospitals, clinics, dispensaries, EHPAD health centres...

WATER PURIFICATION

Disinfection of drinking water, treatment of swimming pools, ponds, purification of water in cooling and discharge towers

AGRI-FOOD AND BEVERAGE

Cutting rooms, fish processing, large surface area laboratories

ARMY / FIRE BRIGADE / DIVERS

Disinfection of clothing, decontamination of weapons, masks and degassing equipment

PHARMACEUTICAL INDUSTRY

Production, processing, packaging chains...
